

Reference Information Guide No. 11

Reference Department

On occasion the Library/Archives Division of the Nebraska State Historical Society receives research requests that go beyond the scope and time limit of what staff can provide. In response to such requests, the Division provides the following list of researchers-for-hire. These individuals, listed alphabetically, are not on staff at the Historical Society and *their inclusion on the list does not constitute an endorsement of any kind*. You may contact any of these

individuals at the addresses listed. Please enclose a self-addressed stamped envelope. *Any agreement reached with one of these researchers is a personal contract between two private parties and does not involve the Nebraska State Historical Society*. The following summaries are unedited transcriptions of what the individuals submitted to us.

Andrea Arbuck Carter

My University of Nebraska-Lincoln B.A. in Great Plains Studies was received in December 2003. My emphasis was on regional history and literature; course work included regional geography, ecology, and my main topics, history and literature. Examples of research projects include Lincoln's Burlington depots, Lincoln and Northeast high schools, the former Cotner University, early U.S. patriotism, and Lincoln annexations. Materials I've worked with are the Historical Society collections, newspaper microfilm, maps, computer markup, and contacted alumni. I presently split my time with cleaning the Pleasant Dale elementary school, doing clerical work in the Village office, and volunteering at the UNL Tractor Museum. I enjoy doing research for others, though I'm now limited in the size of projects I can take on as we become a family of three in April.
