## HISTORICAL NOTE

Saunders County (originally Calhoun County) was created in 1856 out of Lancaster and Green counties which had been approved by an act of the territorial legislature in March, 1855. After several boundary changes were made, the present boundaries were established in 1866. The name of the county had been changed to Saunders in 1862 in honor of Alvin Saunders, the last territorial governor of Nebraska, 1861-1867. The paper town of Neapolis, located in Saunders County was selected to be the capitol of Nebraska Territory in January 1858. This idea was scrapped and the town was never established.

The county encompasses an area of 753 square miles. It is bounded on the west by Butler County, the north by Dodge County, on the east by Douglas County, and on the south by Lancaster County.

Although the county was organized by a general election on October 8, 1867, the real growth did not begin until 1868. By 1870 all the government lands had been taken by early settlers. By 1880, with the addition of railroad facilities, the county was heavily populated. The population in 1870 was 4,547. Today (1990) the population is 18,285 persons. The main lines of railroad to build through the county were the Burlington and Missouri River Railroad in Nebraska and the Union Pacific (Omaha, Niobrara, and Black Hills Railroad). The Omaha and North Platte Railroad operated lines in the county as well as the Chicago and Northwestern RR.

The first post office in the county was established at Ashland on November 13, 1866. Ashland became the county seat of the new county but lost the position to Wahoo in an election held October 14, 1873. The name Wahoo is derived from the Indian word for the red berry bushes. The courthouse at Wahoo was erected in 1905 on the site of an indian burial ground. The

SERIES ONE MARRIAGE RECORDS, 1866-1995

NOTE: Marriage Vols. A-K were microfilmed by the Historical Society in 1986 and appear as reels 3A thru 3E in this series although numbered on the reels 1-5. Volumes D thru K were destroyed after filming and Volumes A-C were transferred to the Saunders County Historical Society. In August of 1995, the Genealogical Society of Utah microfilmed the marriage records held by the Saunders County Historical Society including loose licenses and certificates, 1872-1911, and remicrofilmed Vols. A, 1A-C of marriages. Their project also included Dockets J-O and 1 thru 8 for marriages, 1911-1970. The remainder of the collection are loose licenses and certificates for the years, 1970-1989, microfilmed by GSU.

NOTICE: The marriage licenses of Saunders County were renumbered from #1 in 1912 and have a consecutive sequence throughout. However, the old license numbers are used here because the loose licenses and certificates on microfilm only refer to old license numbers. The new license numbers appear in parenthesis on the inventory. Indexes to marriages can be found on reels #1 & #2 of the collection.
